

HOW TO MAKE A KITKIT FINGER PUPPET

You will need scissors and glue or sticky tape.

1. Cut around the outside. Cut along the grey line to just below the eyes.
2. Cut the red circles large enough to fit your child's finger.
3. Fold along the white dotted lines.
4. Secure the base with glue or sticky tape.
5. Secure the whiskers to the sides of the face.
6. Help your child follow the words with the puppet where you see the Kitkit icon.
